---

Since 1927, the Electricity Supply Board of Ireland - ESB has brought electricity to every corner of Ireland, helping to facilitate its rise as a thriving global economy with one of the highest standards of living in the world.

ESB International, headquartered in Dublin, is ESB's global energy engineering consultancy with a central hub in Bahrain and operations throughout Europe, Africa, the Middle East, and Southeast Asia.

In all our markets, we face strategic challenges that affect millions of people – and our solutions help transform economies, societies, and the lives of individuals and communities.

Drawing on our unique experience, we collaborate with clients to navigate technological and environmental challenges and deliver robust electricity infrastructure. As the world embraces low-carbon solutions, we have the expertise to guide our clients on that journey and are driven to make a difference.

As a utility-based consultant, we have developed, maintained, and operated resilient energy infrastructure internationally for five decades and in Ireland for 100 years – it's in our DNA.

## The markets we have served

We've worked in over 120 countries since 1975, offering clients technical expertise, leadership, and personal commitment in some of the most demanding economies and geographic regions globally.
